

Recombinant Hepatitis B Surface Antigen (rHBsAg) ad subtype

PRODUCT CODE : AW 6171

SOURCE : Transformed *Pichia pastoris*

PRESENTATION : Liquid in Tris-HCl buffer, pH 8.0

PURIFICATION : Purified by immunochromatography

PURITY : SDS-PAGE under reducing conditions reveals a main 24 kDa band corresponding to the monomer. Bands at 44 kDa and 64 kDa corresponding to monomer multimerization are also detected.

Spherical particles of about 20 nm in diameter are detected using electron microscopy.

PROTEIN CONCENTRATION : 0.8 – 1.5mg/ml.

PRESERVATIVE : None.

STORAGE : +2 to +8°C
