

Mouse Monoclonal Antibody to Human Free Kappa Light Chains

PRODUCT CODE : BF 1011

CLONE NO. : 112002

PRESENTATION : Protein A purified immunoglobulin in PBS
buffer, pH 7.4

IMMUNOGLOBULIN SUBCLASS : IgG 1

SPECIFICITY : Specific for independent constantly expressed
epitope of kappa chain. It reacts with free
monomer and dimer of kappa light chains but
not with intact kappa chain-bearing
immunoglobulins.

APPLICATION : Detection of kappa Bence-Jones proteins by
ELISA. This monoclonal antibody can be
used for coating and for labelling.

This monoclonal antibody works for
immunoblotting and can be used for
immunoaffinity purification of light chains.

PRESERVATIVE : 0.1% sodium azide

STORE : +2-8°C.
