

## Partially Purified H. Pylori Antigen

**PRODUCT CODE :** BM 6079

**SOURCE :** Helicobacter pylori from ATCC 43504 is cultured in a solid medium. Washed harvested organisms are solubilised and semipurified.

**PRESENTATION :** In a 1% non-ionic detergent solution.

**INACTIVATION :** Detergent solubilisation.

**TOTAL PROTEIN :** Recorded as mg/ml by Bradford (Biorad) assay using bovine serum albumin as standard.

**PRESERVATIVE :** None.

**STORAGE :** -20°C or lower.  
Optimally stored at -70°C if practical.  
Repeated freeze-thawing of the product should be avoided as this will damage the immunological activity of the antigen.

**SHIPPING CONDITIONS :** Frozen packed with dry ice.

\* For research use only. Not supplied for use in human therapeutic procedures. \*
