

Borrelia Garinii Antigen

PRODUCT CODE : BM 6091

SOURCE : The *Borrelia garinii* organism (reference ATCC culture number 51383) is cultured in broth suspension. Washed harvested organisms are solubilised with detergent to produce a lipoprotein and cytoplasmic cylinder extract enriched with Outer Surface Proteins (OSP).

PRESENTATION : Presented in PBS buffer containing 1% N-octylglucoside.

PROTEIN CONCENTRATION : mg/ml by Bradford (Biorad) assay using BSA as standard.

INACTIVATION : By detergent treatment.
Confirmation by attempted growth under the original culture conditions.

PRESERVATIVE : None.

APPLICATION NOTE : It is recommended that this antigen preparation is sonicated before use.

STORAGE : -20°C to -80°C
Repeated freezing and thawing should be avoided.
